Running King is a fun little indie game where you help the King escape with his treasures. You move objects (such as rocks\switches\traps) on a side scrolling map to clear way for the King as he runs through it. The concept and controls are simple and easy to pick up. You will find new game mechanics as you move toward higher stages. So far I would say I have a very enjoyable experience and can't wait to see all the different game mechanics this game has to offer.

<https://www.youtube.com/watch?v=YiCiPrVxeZU>. I've found a game for a granddaughter. She likes it. Funny king. exciting location. Easy to play and have fun. I agree with developers that location is in focus of attention. Interesting realisation.
